To the Management of Destination Portugal:

I am writing to thank you for your continued great works with our incentive groups. We have had several land programs, including two very demanding auto clients, as well as cruise ports of call programs this year and all the Trip Reports were very positive.

In our over 20 years of doing business with Destination Portugal, we always have been able to count on you and all the staff to provide us the most creative programs at the best cost at all the different stages of the program's development – presentation, post-sale administration, operation and billing.

You also do a great job of keeping us updated on what is new in Portugal, whether it is a new hotel, venue or activity. Not to forget the on-site trainings you have done over the years for our internal staff.

Thank you and all involved with all our programs for another great year of operations! Here's to many more!

Sincerely,

Judy Jackson
Director, Product Services
